Class Specification for	1.018
the classes:	1.019

OFFICE ASSISTANT I, II, III, IV and V

SERIES DEFINITION

The classes in this series reflect responsibility, as a primary function, for performing a variety of clerical support services. Services provided and duties performed range from simple, routine tasks (e.g., sorting, filing, retrieving, duplicating, mailing, posting and processing paper and electronic data and records; counting, tallying, compiling, verifying and/or correcting information) to more involved activities (e.g., providing information and assistance to others about services available and/or applicable policies and procedures; assisting customers with access to services, screening calls and visitors; scheduling meetings; ordering and maintaining office supplies and equipment; preparing a variety of documents using word processing, spreadsheet and other office equipment and technologies; supervising and performing other clerical activities in support of the day-to-day operations of a work unit).

Levels in this series are distinguished primarily on the basis of the following factors:

1. Complexity of work
2. Supervision received
3. Knowledge and abilities required
4. Nature of available guidelines
5. Supervision exercised

CLASSIFICATION FACTORS AND EVALUATION

The primary key to the interpretation of the classes in this series is a consideration of the **overall** character, scope and complexity of duties. Complexity is relative and the use of the word "complex" in the specification, with or without various modifiers, is in terms of these classes only. The Examples of Duties contain duties representative of a given level and are to be used to clarify the more generalized statements contained in the Class Distinguishers.

Positions in this series typically perform a mixed level of duties, and therefore, will normally be evaluated on the basis of the highest level of work performed for a **substantial** amount of time under general supervision. The presence of a couple of

higher level duties performed for an insignificant amount of time, or under close or immediate supervision for training or other purposes will not be considered in level determination. Moreover, while the Examples of Duties portion of a specification does not normally repeat duties presented in the specification for lower-level classes, it is understood that the duties of lower level classes are an implied part of the range of work of higher level cases. Further, where a specific duty is not mentioned in a specification, its level shall be evaluated in terms of the manner and circumstances in which it is performed and compared against the representative duties listed in the specifications.
